

Implementation in VET, European recognition

Athletic Fitness

Athletic fitness started some preliminary actions ahead the first partners meeting at 11.11.2009, including:

- Investigating which is the right EU institution to award an EU certificate
- Establishing contact with EHFA

After the end of this meeting inspired by the outlined possibilities it follows:

- Participation on the EHFA 2nd National Associations Forum which took place in Brussels on 17 and 18 November 2009.

- Mr. CLIFF COLLINS, Director of THE EUROPEAN REGISTER OF EXERCISE PROFESSIONALS (EREPS) was introduced to the EuroSport project by Peter Angelov and invited to visit Sofia to discuss the steps of the accreditation process in details.
- On 3–4 07.2010 Mr. Cliff Collins visited Sofia and met prof. Slavka Tzanova and Peter Angelov. The discussion was very successful and as a result BAHF was invited and later approved as a partner in EHFAs led project ‘Fitness against doping’, ” ...*Your understanding and experience from Bulgaria would be a valuable contribution to the project...*” wrote Cliff Collins.

Another result of this meeting was initiating the process of EHFA accreditation. An extensive e-mail correspondence with EHFA resulted in clearing the picture about accreditation process. After evaluating the NSA partner's program for fitness instructor they wrote:

“...that our technical team is very happy with the content of your programme and how it maps to the standards. Active IQ will be pleased to endorse your course and provide successful learners with certificates to allow them access to the EREPS. ...”

Athletic Fitness

On 18-20.09.2010 the 2nd fitness festival took place in Varna and that was good occasion for dissemination. Peter Angelov introduced EuroSport project and EREPS' ideas to the participants of the meeting of BAHF on 19.09.2010. A broadly shared opinion of the members was that the outcomes of both projects will improve the credibility and the standards of the health and fitness industry in Bulgaria.

Athletic Fitness

Field test

About 20 instructors from Athletic Fitness participated the trial course for fitness instructors and evaluated it as very successful.

Athletic Fitness

Valorization and Dissemination
